

## Virtual Lightening Scavenger Hunt

Host an event online for the ultimate team building fundraising event. This can be office or home worker based. Participants must find the item the quickest and show onscreen for points. This could be department against department or solo.

Here are a few ideas and rules to help you;

- **Ask for items one at a time** - if you give out a list of items there will be lots of empty screens so quickest wins.
- **Mix it up** - remember to ask for common and uncommon items. This gives everyone a chance to participate without getting bored or frustrated and makes it more fun e.g. easy ideas – (pillows, mugs, keyboard) Other ideas – (silly hat, something with company logo on) Remember you can offer bonus points for the silliest or most unusual.
- **Give open ended prompts** – leaving answers open to interpretation can make things more exciting and fun e.g. a non-office thing that is in your home office or show me something you have had for more than five years.
- **Include lightening action rounds** - physical challenges like dance breaks and hidden talent rounds for extra bonus points. This can help you get to know your colleagues better and create a fun atmosphere to boot.
- **Remember to take screenshots** – this means you can share on your socials and show how you all had fun raising funds and smiles.
- **Remember to wear your odd socks** - penalty payable to your total for non-compliance.
